Index Seminum 61/2013

Rhododendron smirnowii Trautv.

Species from the title page:

Rhododendron smirnowii Trautv.

Family: Ericaceae

Rhododendron smirnowii is a shrub, usually wider than it is high, but described in wild as a tree-like shrub to 4-6 m (15-20 ft). The species is distinct in the very thick white (later pale brown) felt on the lower surface of its leaves. It is handsome in bloom but of rather loose habit.

Native of north-east Asiatic Turkey, especially around Artivin on the river Coruh, where it reaches to the tree-line. In the areas of Caucasus it reaches 1500-2000 m a.s.l. Here it grows with many relict plant species due to the fact that Caucasus was spared from the severe effects glacial retreats during the last Ice Age. It grows with species as *Abies nordmanniana* (Stev.) Spach, *Picea orientalis* (L.) Link, *Betula medwediewii* Regel, *Quercus pontica* K. Koch, *Epigaea gaultherioides* (Boiss. & Ball.) Takht., *Rhododendron ungernii* Trautv. and *Phillyrea decora* (Boiss. & Ball.).

It was discovered by Baron Ungern-Sternberg in 1885.

It is perfectly hardy in the Mlyňany Arboretum SAS and frequently gives a very charming display already in the autumn, if the weather is humid after period of drought (the flowering period varies according to weather).

You can find this species under the **number 256** in our seed catalogue.

In response to the **Convention on Biological Diversity (Rio de Janeiro, 1992)** Arboretum Mlyňany SAS supplies its seeds offered in this catalogue on the following conditions:

1. the seeds are only used for the public good in areas of scientific research, conservation of species, education and the development of public botanic gardens,
2. any commercial use of the plant material requires the permission of Arboretum Mlyňany SAS and a separate agreement,
3. any publication resulting from the use of the material should acknowledge Arboretum Mlyňany SAS as supplier.

By ordering seeds you agree to comply with the conditions above.

Desiderata 2013, max. 50

Vaše požiadavky nám prosím zašlite do 30. apríla 2014.

Please return Desiderata before 30 April 2014.

Desiderata senden Sie bitte bis spätestens 30. April 2014 zurück.
